## **DETAILED ACTION**

### ***Election/Restrictions***

This application contains claims directed to the following patentably distinct species of the claimed invention:

- A. Applicant should elect one species of conduit as shown in figure 1, 4, 7, 14, or 16.
- B. Applicant should elect one material consistent with election A for the material of the conduit as shown in figure 19a or 19b. If neither figures 19a or 19b is consistent with the election in A, the applicant may elect 'none' for election B.
- C. Applicant should elect a species of anchor (securing device) as shown in figure 2, 5, 6, 8, 12, 13, 18a, 18b, or 20a.
- D. Applicant should elect one of the following three methods:
  - 1. Providing a conduit, positioning the 1<sup>st</sup> securing component, positioning the 2<sup>nd</sup> securing component, and coupling the 1<sup>st</sup> and 2<sup>nd</sup> securing components
  - 2. Providing a conduit, biasing the conduit, securing the conduit, and allowing the conduit to assume the first orientation
  - 3. Providing a conduit, engaging a working end, positioning a part of the securing components, and disengaging the working end

For all elections applicant should recite all the claims that read on the elected invention. Claims regarding the conduit should reflect election A, and claims reflecting the anchor should reflect election C.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, none appear generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention. A telephone call was made to James Heslin on August 20, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143). Applicant is reminded that upon the cancellation of claims to a non-elected invention,

Art Unit: 3731

the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul A Roberts whose telephone number is (703) 305-7558. The examiner can normally be reached on 7:30-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael J Milano can be reached on 703-308-2496. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0858.
